At the last meeting, the Chair requested that I contact the owners of each property and request that the fence be opened for golf carts. I am very happy to report that this work was done and it is now possible for Golf Carts, pedestrians, and bicyclist to go from one property to other without having to traverse the Crandon Blvd or Harbor Drive corner.

The owners of each property did the work at no cost to the Village. When the Committee approves signage, it will be placed on each side of the fence.

I contacted The Islander News and they will run an article and a picture in next Thursday's paper.

Henny, can you post this on our website.

Jud
